Studies have shown that in your lifetime, you are far more likely to require some form of long-term care than you are to file a significant auto insurance claim. The cost of long-term care services continues to rise, so conversely the financial impact of long-term care cost can be crippling if you find yourself without LTC coverage when the need arises. The professionals at Lineweaver Financial Group can help you decide if long-term care insurance is appropriate for your individual situation, and walk you through the many coverage options available.

LONG-TERM CARE RISK ASSESSMENT PROFILE

On a scale of 1-5, what is your level of concern regarding each of the following statements?

1 = Very concerned 5 = Not very concerned

	Score
I may need some form of long term care during my lifetime.	<input type="text"/>
I understand I may have to access my retirement savings to pay for long-term care expenses.	<input type="text"/>
I am not certain how much of my potential long-term care expenses are covered by medicare.	<input type="text"/>
I am not sure I understand the terms and conditions of long-term care insurance coverage.	<input type="text"/>
Since I expect to live longer than my parents, I don't want to burden family or friends.	<input type="text"/>
Total Score	<input style="border: 2px solid black;" type="text"/>

Scale

Under 16: Very risk adverse and you are most likely not prepared for financial impact of the cost of future LTC needs. Highly recommended you explore your LTC insurance options.

16-20: Moderately risk adverse and while financially you may be able to cope with the cost of future LTC needs, it is probably wise to explore your LTC insurance options.

21+: Less risk averse. Financially secure enough to deal with most any LTC cost in the future. However, does it make sense to evaluate LTC insurance to preserve your wealth?
